WHAT IS THE DIFFERENCE?—Did it ever strike our banker friends who rejoiced so loudly over the "Republican defeat" in Maine, that so far as the voice of the people is concerned, the Republicans as truly gained a *victory* in Maine, as the Americans have now done in Massachusetts? The difference lays only in the different systems under which they voted. Had the plurality system prevailed here as in Massachusetts, Anson P. Morrill would now be Governor elect of Maine, as Henry Gardner is of Massachusetts. To put the case still stronger—Mr Morrill actually received *more* votes in Maine, which has a population of 600 000 only, than Gardner has in Massachusetts, with a population of 1,200 000! And yet in the former case the result is said to be a "crushing defeat," while in the latter it is a glorious victory! If the Republicans puff real defeat in the Gubernatorial vote of Maine, *every other party suffered a worse defeat.*

A SERIOUS CHANGE.—The Pierce men in Kansas are trying to get control of the Free State movement, by falling in with its supporters at the eleventh hour, and from the most rabid pro slavery men, becoming all at once ostensibly in favor of freedom. We shall be glad if this apparent change is found to help the fortunes of the free State Constitution in Congress, which is the vital point of action—but have great and serious doubts. It looks more like a design to secure present votes and offices in the Territory,—or else it is some notable act one of Frank Pierce's to pull wool over the eyes of free soil men. We shall not believe that either the Administration or the slaveholders are really to *admit* Kansas as a free State until we see the thing done. At all events we trust the constitution will be so fixed that it can not be *amended* after the State is admitted, by new incursions of Missouri Borderers and slavery *then* established by their votes.

NEW YORK.—The election returns are canvassed and reported more slowly in New York than in any other State. At the present writing (nine days after the election) the vote for the different tickets is not known within thousands. The *majorities* or *pluralities* by counties are first given as soon as they can be ascertained in round numbers, but these are changed from day to day, as more accurate information is received. The New York city votes were not all canvassed, up to Tuesday last.

The Courier and Inquirer of Monday makes out the pluralities for Headley (Ch. N.) in the several counties to amount to 40,702, and for King (Hep.) 40,118. Subtract for Headley 40,702 584. The full vote is given, as yet, in only 18 of the counties, and is as follows: for Headley 93 333, King 47 270, Hatch (soft dem.) 46,—666, Ward (Hard) 53 915.

The Albany Journal claims 16 or 17 Republican Senators elected, out of the 32, and says the Assembly will stand 43 Republicans, 60 Hards and Softs and 36 K. N.

NEW JERSEY.—The boasted Democratic victory in regard to the New Jersey Legislature develops into a quiet defeat when tested by the official returns. The House of Assembly stands opposition 31, Democrats 29. In the Senate, opposition 9, Democrats 11. In the Ballot, 40 to 40. It was signed when it was supposed the Democrats had carried the legislature, that they would secure to them two United States Senators. This is not so. Mr Independent's term does not expire before 1857, and Mr. Wright's not till 1859.

A WILD CAT ON ABLE.—In elucidating the question for whose benefit did the disgraceful court the state Whig aid in the last campaign the Kennebec Journal says:

A prominent Wild cat leader said within a fortnight, that *rather than have Herd made Governor, he would prefer taking the Devil by the horns at once, and re electing Anson P. Morrill.*

UNION STREET METHODIST CHURCH.—The Pews in this Church were offered at public auction yesterday afternoon, by R. S. Prescott, auctioneer, under the direction of the Committee. About two-thirds of the pews were disposed of. Thirty-two of the number sold at an advance of $294.00 over the appraisal. The sale is adjourned until Wednesday next at 3 o'clock P. M., at which time the balance of the pews are to be sold.

Fiendish attempts to throw railroad trains off the track, are becoming alarmingly frequent in various quarters, and the perpetrators of them deserve some of the mild tortures of the old Spanish inquisition. One or two of the latest attempts of this kind were on the Boston and Lowell road—where a rail was placed across the track and spiked down, in two instances. The first threw a freight train off the track, injuring the engineer and fireman very seriously. The last attempt, (on Monday morning) was to destroy a passenger train in the same way; but the obstruction was seen and removed by a foot traveller on the track.

BOLDER THAN IN KANSAS. In the Independence Dispatch, of the 1st, we find a dispatch from St. Joseph, of the same date, which says that Samuel Collins, a member of the "Kansas Secret Army, met Mr. Pat. Laughlin at Doniphan, the previous day, and tried to shoot him. His gun missed fire, he then stabbed Laughlin in the abdomen, when the latter drew a revolver, and shot him through the heart. Laughlin's life is despaired of.

FAT BEEF.—We observed some of the fattest beef that we ever feasted—our eyes—upon, at the establishment of Messrs. Smith & Laughton, west end of Kenduskeag Bridge. It was from a four year old ox, weighing about nine hundred—and literally "run over with fatness."

Fashion is the race of the rich to get away from the poor, who follow as fast as they can.

DEPARTURE AND REMOVAL OF THE CITY MARSHAL.—Our citizens were taken a good deal by surprise yesterday morning, to hear that City Marshal Weaver had sent in his resignation to the Mayor, and left town by the morning train—after making arrangements for the removal of his family. We do not feel like making any comments, or indulging in any surmises in relation to this step of the Marshal's. Our readers have before them all the evidence heard by the committee in relation to the recent unfortunate affairs in connection with the Police department, and we prefer that they should draw their own conclusions relative to the wrong-doings or improprieties of any of the parties implicated. We will uphold nobody in improper conduct, and we confess there appear to have been improprieties, if nothing worse, in tampering with the seized liquors, which we are mortified to see in evidence.

[Since the above was in type it appears that the Mayor received no resignation from Marshal Weaver, although it was understood that one had been left in town. It was not presented at the City Council set evening, and as will be seen by the proceedings, the Marshal was unanimously removed from all the offices held by him in the City Government.]

THE LECTURE SEASON, in Bangor, for the coming winter, will present unusual attractions. Arrangements have been made for two courses, of ten or twelve and perhaps more, lectures each,—at the new Hall.

The "*Independent Course*," commences first—on the 20th inst.—with an anti slavery lecture from Frederick Douglas,—and lectures on the same subject from Theodore Parker, Wendell Phillips and Mrs Ernestine L. Rose are included in the course. To a large portion of our citizens these lectures will be of the highest interest, as the speakers are all of a high order of talent. The miscellaneous lectures by John B. Gough, Hon. Starr King, Henry Ward Beecher, W. H. Milburn and Rev. Henry Giles must be of the most satisfactory character.

The Fifth Annual Course by the *Mercantile Association*, commences on the 29th inst., and the list of lecturers presents many well known and brilliant names,—such as those of Bayard Taylor, Rev. Dr. Bellows, John G. Saxe, Rev. Dr. Bethune, Edna Dorr, Thos. Starr King, Ralph Waldo Emerson, and others, from whom we can expect none but the very highest class of lectures.

An intermediate course (also under the auspices of the Mercantile Association) of four lectures on the subject of Natural History, will be given by Rev. F. H. Hedge, of Providence, formerly of the Union St. Church of this city,—and from the high scholastic attainments, and polished elegance of the lecturer, they cannot fail of furnishing a rich intellectual repast. The same course has been delivered before the Lowell Institute in Boston, and met with the highest appreciation.

We think that the whole lecture going community of Bangor, of whatever shade of sentiment or opinion, will be able to find many lectures to suit them, in the list now presented.

SIMPLE ADDITION.—"One to carry" was the result of a hasty reckoning of a Mechanic in Hartford, Conn., a day or two since, when a blooming young woman with an infant in her arms, marched into the shop where he was at work and deposited the baby on the table before him, with the remark, "Here's your child—I shan't take care of it any longer"—and vanished leaving him the unwilling possessor of an interesting piece of property.

BOOT PEGGING MACHINE. The Worcester paper mention a newly invented machine for pegging boots, which may be operated by hand, foot or other power, and will peg a boot or shoe in *thirty seconds*.

Walker's New Map of the Crimea, the Sea of Azoff, Europe, Schastopol and the Environs, and of the Seat of War, hung in the Blackstone Bookstore. They are on paper, and at a low price.

COMFORTABLE RETIREMENT.—Geo K Shaw, Esq., for several years editor of the Norway Advertiser, has been appointed first class clerk in the treasury department at Washington.

Col R. D. Taylor of Chicago lately sold a lot of ground adjoining the Tremont House, forty feet front, for the sum of $48,000, or at the rate of $1,200 per front foot.

NEW YORK.—The Republican party needs no stronger or surer guarantee for the future, than the glorious West has furnished in its recent emphatic vote for Freedom. With the West now, as formerly, strong and firm in their devotion to Freedom, all is safe. The large cities are those who cling longest to error. We are now beaten by the stolen vote of the city of New York, against which the country will organize and recruit an army of Freemen to besiege and conquer the Sebastopol.—*Albany Journal.*

The Republican Party of New York, in this, its first campaign, has thrown upwards of 100 000 votes.

PLOT TO BLOW UP A RAILROAD TRAIN.—We recently published an account of the arrest of six men who were detected in the act of placing obstructions upon the Milwaukie and Mississippi Railroad, in Wisconsin. We learn from the Madison Patriot that another person has been arrested for being concerned in the recent diabolical attempts to throw the trains of the road from the track, and it has been ascertained that a plot was laid some month ago to blow up a passenger train. The plan was to sink a piece of sheet pipe filled with powder and stopped up at the end, under the track—to have a train of powder leading from the mine several yards along side of the track, mixed with percussion caps, so that when the locomotive crushed and ignited the caps and fired the train of powder, the passenger car would be directly over the mine, and suffer a destructive explosion. The annals of villany hardly furnish a more dreadful instance of human depravity than this. Fortunately this plan was postponed till after one more effort of obstructions had been made. In that the scoundrels were detected.

TOO MUCH CANDOR.—A clergyman, the other day, while stopping at the Detroit Hotel, missed his umbrella from the stand, whereupon he helped himself to a similar one, and went on a walk up and down the streets. At last, he took a look himself, at the outside of his "borrowed" umbrella, and there he found painted in large letters—

"*I stole this umbrella from J. C. Kingsley.*"

Our clerical friend took a look at the clouds with a look "more in sorrow than in anger" and concluded that there was not rain enough to cause it worth while to spread an umbrella, or take one, at all events.

Report of the City Missionary.

At a meeting of the ladies, held Oct. 10, 1855, to hear the annual report of their City Missionary, and to devise means for his support, it was voted, that it should be discretionary with him to publish such parts of his report as he might deem proper. The publishing of it has been postponed till the present week, as the next Sabbath will be the Sabbath before Thanksgiving—the day which for several years past, has been considered most suitable for taking up collections for the poor.

A part of the report was given verbally, but the following is the substance of it:

"Our meeting together to-day reminds us that another year is gone. Another year's missionary labor is done, and all that can be done—would that it could be said, all that might have been done. But whether we have been faithful or unfaithful, whether we have been wanting in interest for the spiritual and physical comfort and welfare of the destitute of our city, or whether our plans for doing good have been wisely formed, and judiciously and prudently executed or not, the year has gone, and it can never be recalled for us to labor in again.

But we may call to mind the acts of the year—what we have done for the good of others, directly or indirectly—personally, or through the agency of others.

And it is well for us to pause occasionally, and at stated periods too, after a careful examination of all the facts relating to our case, our opportunities of doing good and how these have been embraced and used, whether it can be said of us, as Christ said of Mary, 'she hath done what she could.' And it is with no ordinary feelings, I assure you, that I appear before you to-day, rising from a cursory review, not of one year only, but of the last five year's labor as your missionary chiefly among the poor of our city.

Considering the extent of the field, the variety of labors, the difficulties and manifold discouragements attending such labors, and more than all, the consequences for good or evil, I approach my ministry, depending on the manner of their performances, is it unreasonable to ask, 'who is sufficient for these things?' But though there may have been discouragements; though we may not have seen all the good accomplished we expected or desired, yet there are abundant reasons, calling for our sincere and fervent gratitude to God, 'the giver of every good and perfect gift,' that he has enabled us by His blessing to do any good—to cheer and comfort any heart—to counsel and instruct any of the erring—and to hold up before any, Jesus Christ crucified, as the only hope for the sorrowing—the only help for the lost and perishing. And your missionary certainly has cause for thankfulness to Him who is plenteous in mercy, that he has been permitted to labor through another entire year, without one hour's interruption from sickness. Would that he could say every hour has been economically and faithfully improved—If he could, he doubtless would be able to present to you more cheering results of his labors—such as would stimulate you to greater activity in every good work and work.

What these labors have been the past year, some of you already know, at least, in part—It is as true now, as ever, that 'the poor ye have always with you, and when ye will, ye may do them good.' Thus, I suppose in a spiritual good, as well as physical. The Rev. F. D. Huntington, in his sermon before the society, for the prevention of pauperism,' well remarks, 'there wants a spiritual sympathy as much as a skilful gift—and a study of the wants of moral purposes, as much as a supply of food, or even of work.'

Poverty, then, is not to be prevented, only by relieving physical want and suffering, but by accompanying our alms with such counsels—such words of comfort and encouragement—such moral and religious instructions—as shall not only confirm the moral wavering purposes already formed, but lead at the forming and performing of new purposes of good, to the inspiring of a new energy in the whole man, resulting not only in habits of greater industry and economy, but in a virtuous, holy and happy life.

This is what you have been trying to do through your missionary, the past year. One, I fear but poorly qualified for the performance of an important and responsible duties.

It is very easy to state what has been done during the year, so far as figures can tell:

The number of visits made	1650
Visits to the sick	130
Different families visited	400
Families aided	122
Garments distributed	750
Families aided with clothing	65
Children clothed	90
Meetings held	78
Funerals attended	24
Pages of tracts distributed	9000
Copies of Messenger monthly	150
Copies of Child's Paper	125

Money received for charitable purposes during the year, is as follows:

Balance on hand Oct. 1st, 1854	$13.84
Contributions Sabbath before Thanksgiving	541.50
Private donations	74.00
Billings & Holden concert	52.00
Returned	23.00
Total	704.34
Whole amount expended	710.00
Balance against Charity Fund	5.66

It may be interesting to some to know what has been done during the past five years by their missionary. In the statements here made, so far as they relate to the amount of money received and expended, and the number of garments distributed, only four years are embraced. It will probably be recollected that there were no general contributions for the poor, the first year of my abors here.

I can only give a summary—which is as follows:

The whole number of visits during the five years, about	9000
Visits to the sick	650
Number of garments distributed	2242
Families aided with clothing	176
Children clothed	250
Amount of money received and expended	$3235.84
Number of different families aided, about	300
Number of Funerals attended	96
Number of copies of Messenger distributed	7500
Child's paper	3500

Number of meetings held through the voluntary and of the students of the Seminary, in eleven districts, including the Almshouse 700

It may be proper to state, that every cent of the money contributed, has been appropriated for the physical comfort of the poor. It may be that some of it has been given indiscreetly. I have endeavored to act wisely and prudently in every case.

Respecting cases of imposition, I will simply say there have been quite a number of cases during the year. And as long as people will give indiscriminately to strangers—at their doors—so long will they be found wandering about our streets.

I will embrace this opportunity to inform the good citizens of Bangor, that the calls for clothing have been very frequent of late, and that I am in want of a large number of children's garments, of all sizes, and any others that may be sent.

Since the above report was made, I have received $260.60, the avails of the lecture at the dedication of the New Market Hall. Of this, $78.81 have already been spent for the poor, leaving $171.69 on hand. The annual average for the past four years has been about $800.

In conclusion, I would say in the language of another, "May He, who giveth to all liberally, and upbraideth not, give us wisdom for the discharge of future duty, and enable us to fulfill the injunction, 'Do good to all as you have opportunity.'"

JAMES WELLS.

Bangor, Nov 13, 1855.

NICARAGUA.—The unfortunate republic, which is now brought prominently before the world by the operations of two noted filibusters, Walker and Kinney, is one of the largest of the Central American States. On the west it is washed by the Pacific Ocean, and partly on the east by the waters of the Caribbean Sea, the Mosquito Territory forming a large share of its eastern boundary. Honduras borders it on the north, and Costa Rica on the south. It contains about forty-nine thousand square miles, and the population is estimated at two hundred and forty-seven thousand. The females are said to greatly exceed the males in number. Not more than twenty thousand of the people are whites, the rest being negroes, Indians and mixed races. Most of the population live in towns, many of them going several miles daily to labor in the fields. The plantations are scattered pretty equally over the country, and are reached by paths so obscure as to almost escape the notice of travellers, who are thus liable to fall into the error of supposing that the country is almost uninhabited. The dwellings of the people are usually of canes, thatched with palm, although the better classes construct their residences of adobes, and by the help of fruit and shade trees, planted in the courtyard, render many of them exceedingly pleasant. A range of mountains extends along the west coast of the State, at a distance of a few miles from the sea, but assuming no great elevation until they approach the confines of Costa Rica, when they reach the height of five to eleven thousand feet. In the central part of the State is an immense level tract, known as the plain of Nicaragua, comprising in its area the lake of that name. Numerous volcanoes exist along the Pacific coast. There are a considerable number of rivers, but none of them, except the San Juan, are navigable in a commercial sense. Veins of copper and silver are of exceeding richness in portions of the country, but they remain almost all of them either unexplored or only superficially worked. Gold, also, is said to exist. The climate is healthy, though various. In the interior and mountainous parts the temperature is somewhat dry and cool than on the coast, where it is hot and approaching to humid. The greater portion of the State consists of plains and gentle slopes form out of a rich black loam, of which but a small portion is made available. The productions are indigo, sugar, coffee, cotton of superior quality, corn, rice, wheat, &c., besides of tangos, lemons, and fruits of various kinds.

The great bane of the country has been its civil wars, and it was one of these which enabled Col Walker to achieve his almost bloodless conquest. From the above description it will be seen that Nicaragua possesses all the natural resources requisite for a flourishing State, needing only an energetic population to develop them, and make them tributary to the wants of the world. If the expeditions of Walker and Kinney should result in settling the country with peaceful and industrious inhabitants who will turn their attention to agriculture, mining and commerce, their enterprises will result in blessings to Nicaragua and to the world, whatever may be thought of their conduct in a moral point of view. In the latter respect, the expedition of Walker certainly is not much better than a piratical one.

Boston Journal.

ATTEMPTED MURDER AND SUICIDE.—In Preston, near Norwich, Ct., on Tuesday, Nov 6, George Maples assaulted and nearly killed his wife and child. In the morning he was uncommonly pleasant to his wife, having walked out with her to call upon a neighbor. In the afternoon he entered the house, walked up to his wife, and told her they must all die. He then struck her with a cleaver over the head and face, gashing her terribly. The child received in a similar manner, leaving on each some ten or twelve dangerous wounds. The woman remembers nothing after the assault till she came to some time after, when she staggered out of the house, and by screams aroused the neighbors. The man was not found till the next morning. He had hung himself during the night by a chain from a tree near the house. The victims of his brutality lie in a very dangerous state, with little or no hopes of recovery, if indeed they be now alive.

A HUSBAND THIRTY YEARS ABSENT.—The Cincinnati Enquirer relates some facts which anew illustrates the old adage of "truth is stranger than fiction." About six years since, Mrs Martha Wood, accompanied by her son, his wife and a couple of children, arrived in that city from New Bedford, Mass. Situated that she was a widow of twenty-four years' standing, her husband having been a mate of a whaler, which had been lost at sea. A few days since, a gray-headed and toil worn man called at the residence of Mrs. Wood, and inquiring for the widow, announced himself to her as the long lost husband. The ship in which he had made his last voyage from New Bedford was cast away on the South sea islands, and he was one of the few who escaped a watery grave. After enduring almost unheard of privations, he succeeded in reaching his native city, and thence proceeded to Cincinnati, where, after thirty years' absence, he was reunited to the partner of his early joys.

A newspaper in Cleveland, having advertised that they would send a copy of the paper gratis for one year to the person who would send them a stalk of tea, received the *low spot of clods* from a young lady in the country.

City Council.

IN CITY COUNCIL,
Wednesday Evening, November 14.

A communication was received from Deputy Marshals Pratt and Emerson, and officers Adams, Persons, Withee, Robinson and Smith, stating that they have been misrepresented in the Report of the Investigating Committee, and asking for a hearing by themselves or their counsel. The request was unanimously granted; and some explanations were subsequently listened to from them. [A statement in the report that Mr Gilman had testified to certain acts of drinking, &c., was explained by members of the Committee as being Mr. Smith's testimony.]

A resolve was introduced in Common Council, for the removal of Philip Weaver from the office of City Marshal, and it passed both boards unanimously.

A resolve to remove him from the offices of Constable, member of Superintending School Committee, Tythingman, and Commissioner to make complaints of Truant Children, was also passed unanimously with the exception of one vote in Common Council—that of Mr. Bartlett.

A Convention of the two boards was then held to fill the vacancy in the office of City Marshal—but after six ineffectual ballotings, the election was postponed. The principal candidates voted for were H. B. Farnham, S. H. Boardman, and P. D. Mills. On the last ballot Mr. Mills had 12, Mr Farnham 8, Mr. Boardman 7, scattering 1.

In Board of Aldermen—An order was passed (upon petition presented) for the commitment to the Insane Hospital, of Phebe Boston, an insane pauper.

The City Council adjourned till Wednesday evening, Nov 21.

SINGULAR APPLE.—An apple was brought into Boston market for the first time the present season, from New Hampshire, where it has received the name of "*No blow*." It is a most remarkable apple in its appearance as well as in its character. It is about as near square as round for it is neither. Its shape is oblong, and looks like a *club foot*. It is a passable good apple for eating or cooking. The tree on which it grows stands in a pasture, where it is said to have come up from a dropped seed, and never blossoms—the fruit rarely having any seed. Some of the specimens have little green coated seeds around the calyx, but they contain no seed. The apple is not entirely cureless having the usual appearance of an apple core in the flesh, but wholly without seeds.

LOVE AND LAW AMONG THE TURKS.—A young man desperately in love with a girl at Silanchio, earnestly sought to marry her but his proposals were rejected. In consequence of her disappointment he bought some poison and destroyed himself. The Turkish police instantly arrested the father of the young woman, as the cause, by implication, of the young man's death, under the fifth species of homicide, he became thereby, punishable for the act of suicide. When the case came before the magistrate, it was urged literally as the accusers that if the the accused, had not a daughter, the deceased would not have fallen in love, consequently he would not have been disappointed, and not died. Upon all these counts he was mulcted to pay the price of the young man's life, which was hard as eighty piastres, and was accordingly exacted.

WOULD remind their friends and the public generally that they continue to sell the *most approved* Kinds of Cooking Apparatus in the market, among which that *celebrated STOVE*, the

Belle of the States,

which have not been equalled in this or any other market, and commends itself to every person who uses it in their selection, due to consideration by an extensive and *satisfied* public, as will be evident by a perusal of the following. It will take the place of all other stoves, and finish the work in the shortest time of any Stove ever offered to the public. It is not a stove that is neat and substantial, but a Stove that is better than any other Stove of its size and kind ever made. The oven is very large, with some under the fire boxes in front, and heated and ventilated in the most perfect manner. It is WARRANTED to give *perfect satisfaction*, or will be returned and the money refunded.

TO

Fanny Fern's 1,000,000 Readers.

A New Book Coming.

WE have the pleasure of announcing that we have in press, and shall publish about the first of December, a new work of fiction, entitled

ROSE CLARK,

A ROMANCE .....BY FANNY FERN.

The last work and first continuous tale of this brilliant and fascinating authoress, "Ruth Hall," achieved a success unexampled in the annals of letters. In the language of a leading periodical, it "created a more profound sensation than any which has been issued during a quarter of a century"—But it is unnecessary to allude to the merits of "Ruth Hall." Judging from the number of copies it has sold we judge that every body in the United States has read it. As regards the work we have now in press, Rose Clark, we can only say that we regard it as, in every respect, a greater, better work, and are confident it will not only sustain, but even increase the reputation of its distinguished authoress. We have reasons for thinking "Rose Clark" will make a greater sensation than did "Ruth Hall."

It will form an elegant 12mo volume of over 400 pages. Price $1,25, on receipt of which copies will be sent by mail post paid. It will be for sale by all booksellers

☞ Any newspaper giving this advertisement three insertions, and sending us a copy of paper with advertisement marked, will receive an advance copy of the work, by mail, post paid.

Publish by MASON BROTHERS, New York.

California Steamers,

Carrying the United States Mail

5th and 20th of each Month.

Reduced Prices. 100 lbs Baggage Free.

Through Tickets, including transit of the Isthmus, via Panama R R.

By order of the Postmaster General, the United States Mail Steamships will hereafter be despatched from New York on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers *without any extra charge*. This is the *only* line giving a single through ticket, including the *entire* passage.

Transits made in *six hours, entirely by daylight*, thus avoiding the great expense of a night in open boats to fever and ague and 21 miles of dangerous lake and river navigation, with rocks and shoals.

Arrangements have now been completed so that the regular U S Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers to the Mines a sure and *short* passage, without any delay on the Isthmus.

Tickets can be secured only of the Company's Agents, or they will be recognized by the Agent at Panama, and tickets thus signed can be obtained of the *only authorized Agent* for the Atlantic and Pacific Mail Steamship Companies, in this city. C L BARTLETT, Agent,

STANLEY HOUSE,

WATER STREET, AUGUSTA, ME.

G. W. RICKER, would respectfully announce to the Traveling Public that he has repaired the Stanley House, Augusta, and furnished it throughout with NEW and ELEGANT FURNITURE, and made every arrangement necessary to continuing it as a First Class Hotel.

This is the most centrally located House in the city, being directly opposite the Depot, and in close proximity to the steamboat landing. Court House, Post Office, and but a few minutes' walk from the State Houses.

Business men, or persons traveling for pleasure, will find that this House affords every convenience or luxury that can be desired, and the Proprietor is determined to spare no pains to make it in every respect second to none in the State.

Books for all Stages leaving town will be kept at this House.

In connection with the above are good Stables with attentive and careful Hostlers.

KENNEDY'S MILD DIPPER

The Greatest of the Age!

MR KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures *THE KING OF DISEASES*, from the worst Scrofula down to a common pimple. He has tried it in over eleven hundred cases, and never failed except in two. He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a raging sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will cure the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst cases of erysipelas.

One to two bottles are warranted to cure all humors in the eyes.

Two bottles are warranted to cure running in the ears and blotches in the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two to three bottles are warranted to cure the worst case of ring worm.

Two to three bottles are warranted to cure the most desperate cases of rheumatism.

Three to six bottles are warranted to cure salt-rheum.

Five to eight bottles will cure the very worst case of Scrofula.

A benefit is always experienced from the first bottle, and a perfect cure warranted when the above quantity is taken.

Nothing looks so impossible to those who have in vain tried all the wonderful medicines of the day as, that a common weed, growing upon the pastures, and along old stone walls, should cure every humor in the system. It is now a fixed fact. If you have a humor it has to start. There are no ifs nor ands about it, as ting some evils but not yours. He has peddled over a thousand bottles of it in the vicinity of Boston, and knows the effects of it in every case. It has already done some of the greatest cures ever done in Massachusetts. He cured a child five a year old, to old people of sixty, and has seen puny looking children, whose flesh was soft and flabby, restored to a perfect state of health by one bottle.

To those who are subject to sick headache, one bottle will always cure it. It gives great relief in catarrh and dizziness. Some who have taken it have been costive for years, and have been regulated by it. Where the body is sound it works quite easy, but where there is any derangement of the functions of nature, it will cause very singular feelings, but you must not be alarmed—they always disappear in from four days to a week—Where is never should result from it—on the contrary, when that feeling is gone, you will feel yourself like a new person. I heard some of the most extravagant encomiums of it that ever man listened to.

No change of diet ever necessary. Eat the best you can get and enough of it.

DOCTOR HOOFLAND'S CELEBRATED

GERMAN BITTERS,

PREPARED BY

Dr C M JACKSON, Philadelphia, Pa.

WILL EFFECTUALLY CURE

Liver Complaint, Dyspepsia, Jaundice,

Chronic or Nervous Debility, Diseases of the Kidneys, and all diseases arising from a disordered Liver or Stomach,

such as Constipation, Inward Piles, Fullness, or Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fullness or Weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried and Difficult Breathing, Fluttering at the Heart, Choking or Suffocating Sensations when in a lying posture, Dimness of Vision, Dots or Webs before the Sight, Fever and Dull Pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, &c.

Sudden Flushes of Heat Burning in the Flesh, Constant Imaginings of Evil, and great Depression of Spirits.

The proprietor, in calling the attention of the public to this preparation, does so with a feeling of the utmost confidence in its virtues and adaptation to the diseases for which it is recommended.

It is no new and untried article, but one that has stood the test of a ten years' trial before the American people, and its reputation and sale is unparalleled by any similar preparations extant. The testimonials in its favor given by the most prominent and well known Physicians and individuals, in all parts of the country is immense. The following from some of our State Officers is respectfully submitted, referring any who may still doubt, to my "Memorandum" or Practical Receipt Book for Farmers and Families, to be had gratis of all the Agents for the German Bitters.

TESTIMONY FROM MAINE

Capt. Daniel Hunt, Franklin Maine, July 16, 1853. "I was taken sick one year ago last April, upon my passage from Havana to Charleston S C. At the latter place I took medicine and procured a physician, but for ten days could obtain no relief, no sleep or appetite. At last taking up a newspaper having your advertisement of "Hoofland's German Bitters" in it, I sent for some immediately. This was about 10 o'clock, at 11 o'clock I took the first dose, and another at 6 o'clock. The effect was so surprising to me that I had a good appetite for supper, and rested well that night, and the next day found me a well man—I have not been without your medicine since, having been sailing between Baltimore, Charleston, and the West India Islands ever since. I have now given up going to sea and reside in this place, where you should have an agency, as you could sell large quantities of it."

Jos B Hall & Co, Presque Isle Aroostook Co, Maine, April 24, 1854, say, "We herewith send you a certificate of a cure performed by the use of *only one bottle* of the German Bitters. We think Mr Clark to be a man of veracity, and have no doubt of the truth of his story."

Messrs Jos. B Hall & Co—Gentlemen—In answer to your inquiries I will state that my daughter, aged about 16 years, has been complaining of a pain in her side for say six or seven years, and about the first of January last was taken down and confined to her bed. The pain in her side was very severe, besides being troubled with pains between her shoulders and in her breast. From reading a number of cures performed by "Hoofland's German Bitters, I was induced to try them in her case, and sent to your store and purchased *one bottle*. She had taken of it but a few days when she began to improve and now, after taking *only one* bottle, she is enjoying better health than she has for years—She feels no pain in her side or in any part of her body, and attributes her cure *entirely* to the German Bitters. WILLIAM CLARK

Salmon Brook, Aroostook Co, Me

You should bear in mind that these Bitters are *entirely vegetable*, thereby possessing advantages over most of the preparations recommended for similar diseases.

LET US REASON TOGETHER

HOLLOWAY'S PILLS.

WHY ARE WE SICK?

If health is the first of blessings, it should be sought and secured by all means. HOLLOWAY'S PILLS are specially adapted to the relief of the WEAK, the NERVOUS, the DIFFICULT, and the INFIRM, of all climes, ages, sexes and constitutions. Professor Holloway personally superintends the manufacture of his remedies in the United States, and secures them to every enlightened people in the western hemisphere, the world ever saw for the removal of disease.

These Pills Purify the Blood.

These famous Pills are expressly compounded to operate on the stomach, the liver, the bowels, the lungs, the skin and the kidneys, correcting any derangement in their functions, purifying the blood, the source of every vital principle, and thus eradicating disease in all its forms.

Dyspepsia & Liver Complaint.

Not only half the misery, but have taken these Pills. It has been proved in all parts of the world that nothing has been found equal to them as a cure for all disorders of the liver, dyspepsia, and all complaints generally. They seldom fail to give immediate relief, even in the most obstinate cases, when all other means have failed.

General Debility. Ill Health.

Many of the most despotic Governments have opened their Custom Houses to the introduction of these Pills, that they may become the medicine of the masses. Learned Colleges admit that this medicine is the best known for persons of delicate health, or where the system has been impaired, as its invigorating properties never fail to afford relief.

Female Complaints.

No Female, young or old should be without this celebrated medicine. It corrects and regulates the monthly courses, at all periods, acting in many cases like a charm. It is also the best and safest aperient that can be given to children of all ages and for any complaint—consequently no family should be without it.

Holloway's Pills are the best remedy known in the world for the following Diseases:

Asthma	Dropsy	Inward Weakness
Bowel Complaints	Dysentery	Lumbago of Spine
Colds	Fever and Ague	Piles
Coliks	Female Complaints	Stone and Gravel
Chest Diseases	Headaches	Secondary Symptoms
Costiveness	Indigestion	Tumors
Dyspepsia	Jaundice	Venereal Affections
Diarrhœa	Inflammation	Worms, all kinds

**Sold at the Manufactories of Professor Holloway, 80 Maiden Lane, New York, and 244 Strand, London, and by all respectable Druggists and Dealers of Medicines throughout the United States, and the civilized world, in boxes, at 25 cts, 62½ cents, and $1 each.

☞ There is a considerable saving by taking the larger sizes.
